NOTE FOR: [REDACTED]

SUBJECT : DD/S Career Development Program

During his recent trip to the Far East, [REDACTED] was asked a number of questions about the change in policy on the Career Development Program. He wonders whether we should send some message to the CT's involved before they return to headquarters.

25X1

I suggest that you draft a personal message to the few individuals who are concerned (I believe they are mostly in [REDACTED]). The message could make it clear that the individuals are not required to make a decision before returning to headquarters, but it should give them some background information on the philosophy.
